Last week I had the pleasure of speaking at **KCD Czech & Slovak**.
No better way to celebrate **#Kubernetes**' 10th anniversary **#KuberTENes** than with two local **#cloudnative** communities at a joint **Kubernetes Community Days**, and spending quality time with old and new friends (sorry if I missed any selfie :-)) in lovely Prague.

Thanks **Zdeněk Váňa** **Juraj Hantak** **Filip Pohronsky** and the teams from Prague and Bratislava for inviting me to speak on **Platform Engineering**, and well done on putting up this great event at the **Faculty of Information Technology CTU in Prague**, and pushing the local CNCF communities forward in impressive collaboration.

If you missed my talk, or want to learn more, check out my blogs:
