

PromCon Europe 2024

OVERVIEW

PromCon Europe 2024 made a strong return for its ninth edition, maintaining its dedicated focus to the Prometheus monitoring system. Hosted in Berlin on 11-12 September, the event offered 20 in-depth sessions, 22 lightning talks, and a lively hallway track, fostering dynamic discussions and networking opportunities.

PromCon connects Prometheus users and developers from around the world to exchange knowledge, best practices, and experience gained around using Prometheus. The event serves as a collaborative experience to build community and grow professional connections around systems and service monitoring.
